

MEDICATECH USA®

A series of thin, light blue wavy lines that flow across the middle of the page, creating a sense of movement and depth. They are layered, with some lines appearing in front of others, and they transition from a light blue color to a white background.

COMPANY PROFILE

**A Leading Company Dedicated to Imaging
Excellence**

Growing Strong Since 2005

WHO WE ARE

Medicatech USA® is a leading provider of advanced digital radiography solutions, specializing in the design, engineering, and manufacturing of high-performance radiographic systems, acquisition platforms, and PACS (Picture Archiving and Communication Systems) software.

Every product at Medicatech is fully designed, engineered, and manufactured by our global team. This complete control over every stage of development guarantees exceptional quality, continuous innovation, and reliable performance. Our commitment extends beyond technology, delivering outstanding customer support tailored to the unique needs of our clients.

Headquartered in Irvine, California, Medicatech has been driving innovation in digital imaging since 2005, continuously setting new standards for performance, reliability, and service.

WHY US

- **American-Made Excellence:** All of our systems are designed, engineered, and manufactured by us, ensuring the highest standards of quality, durability, and performance.
- **Innovation at Its Core:** With a team of over 30 dedicated engineers, we can deliver the latest advancements in digital imaging for faster, clearer, and more accurate diagnostics.
- **Uncompromising Quality:** We compete with top-tier equipment manufacturers by offering high-definition imaging at competitive prices.
- **Rapid Growth and Trust:** The fastest-growing digital radiography provider in the U.S., trusted by healthcare professionals nationwide.
- **Tailored Solutions:** Over 20 years of experience customizing systems to meet the specific needs of our clients.

Product Range:

- **Medical X-Ray Room**
- **Chiropractic X-Ray Room**
- **Fluoroscopy X-Ray Room**
- **Veterinary X-Ray Room**
- **DR Panels**
- **Voyance DR Acquisition Platform**
- **PACS & Cloud PACS**
- **AI Chiropractic Tools**
- **AI Veterinary Tools**

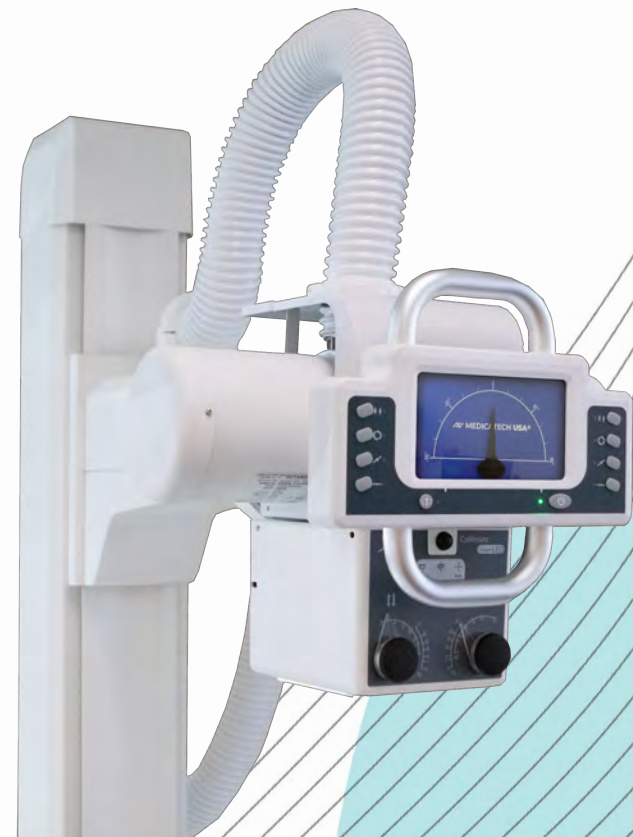

MasteRad[®] MX Series MX30

**Advanced
Imaging.**

**Simplified
Workflow.**

**Enhanced
Outcomes.**

MasteRad® MX40 Straight Arm

**Innovative
Solution
Solving Your
Clinical
Challenges.**

MasteRad[®] MX Series Chiro

- ✓ Easy to Install and Operate
- ✓ Durable and Cleanable Surfaces
- ✓ Easy-Glide Movements
- ✓ One Touch Quick Release
- ✓ Great Cable Management
- ✓ Multiple Hand Grips for Movement
- ✓ Compact Design

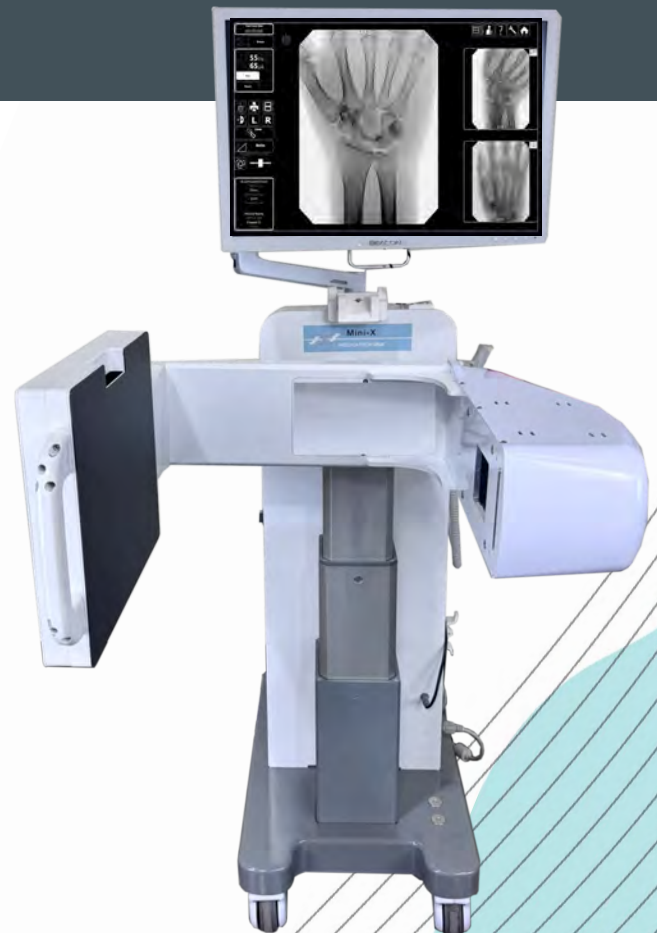

Mini-X™ Mobile C-Arm

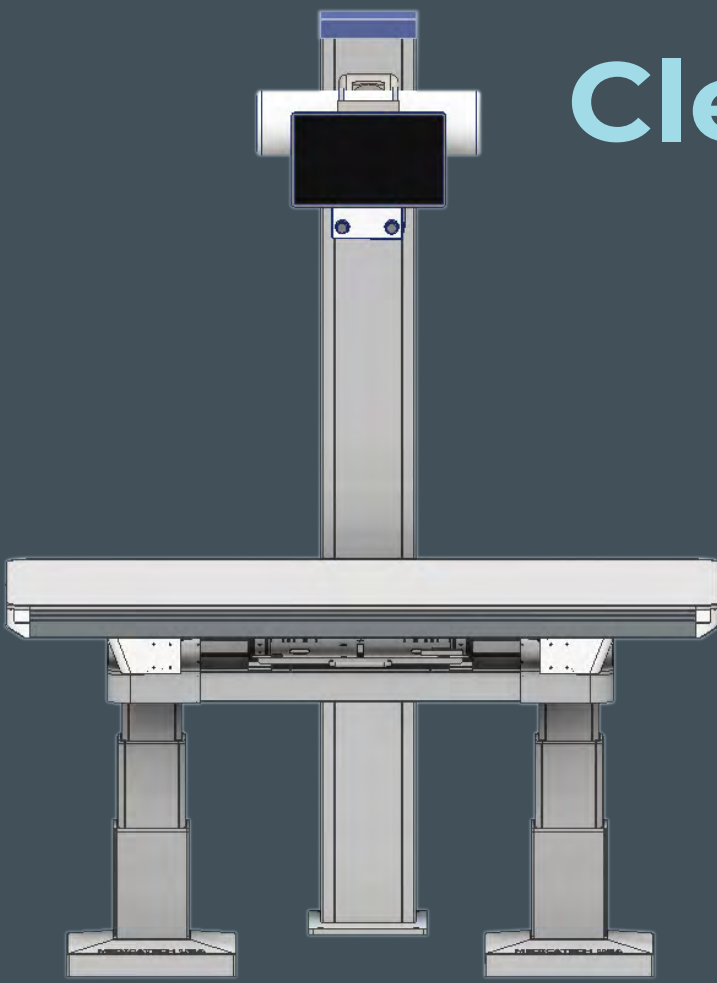

**4× larger imaging
area.**

**Battery-powered
operation.**

**Compact,
high-resolution
design.**

ClearRay™ 2000

- 18"–31" Table Elevation
- Low-Ceiling Compatible Column
- Open Platform for Easy Cleaning
- One-Touch Foot Control
- Electromagnetic Table Braking
- Single LAN Connection – No Power Supply Needed

ClearRay™ 1700

- Durable, high-quality construction – Tube column fits low ceilings
- Electromagnetic braking system – Smooth, secure table movement
- Open table platform – Easy access and simple cleaning
- Large 4-way float top table – 31" x 60", 500 lb capacity, wide lateral range
- One-touch foot control – Effortless patient positioning

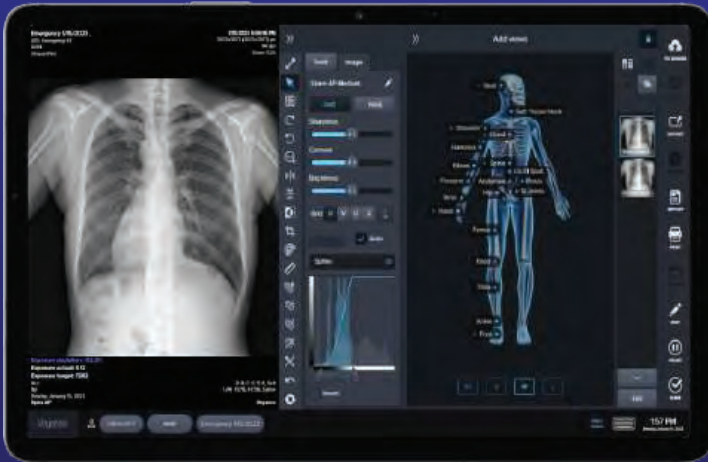

MasterX 900 Series

- **Dual Battery** :Apply two batteries of 7.6V, 3000mAh, and 22.8Wh capacity to provide stable power
- **Ultra-Low Dose**: Prioritizing patient safety with minimal radiation exposure.
- **Transfer in a Flash**: MasterX900's specialized antenna delivers raw image transfers in under two seconds.
- **High-Quality Glass**: Premium glass materials ensure superior image clarity.
- **Impact Resistance**: Built tough to withstand real-world handling and environments.

VoyanceX 5.0: Advanced X-Ray Acquisition Software

Intelligent Workflow

A sleek single-page design featuring advanced intelligent automation to streamline workflows and eliminate manual tasks.

- Increase productivity 1.5x times.
- Enhance patient care.
- Eliminate down-time.
- Secure patient data.

HarmonicaX:

Superb image quality, tailored for precision, through a set of intelligent image processing features:

- Dynamic image adjustments: contrast, brightness, sharpness, and latitude.
- Customizable presets: Soft, Medium, Hard, and High Contrast.
- Visualization tools: sigmoid curve editor and grid overlays.
- Automatic cropping.
- Grid line suppression.
- Smart noise cancelation.

Vpax.ai: Beyond Cloud Storage

Vpax.ai offers advanced AI-powered spine analysis and annotation tools, designed to:

- Save time
- Increase diagnostic precision
- Enhance patient care quality
